

Bathtub Crayons

ACTIVITY:

Make fun crayons to use in you bath!

Supplies:

1/2 bar soap

Grater

Up to 1 tbsp hot water

Bowls

Food Color

Directions:

Grate 1/2 bar of soap into a bowl.

Add hot water. The more water you add the better the soap will dissolve, but then it will take longer to dry!

Add food color. (Remember if you are not using white soap, your color will be affected by color mixing!)

Mash with a fork or potato masher.

Put into any mold, or shape with your hands.

Wait for them to dry and have some fun!
